Site 641 is located close to the water and is isolated from the other sites. There is very little slope from the rock and sand shoreline to the site. The large pines along the shore and the maple forest inland make this a scenic location.

Site 642 is also conveniently close to the water and near a path leading to Little Bass Lake. The shore area consists of sand and rock with little slope from shore to the site.

Site 643 is found on a scenic ridge with tall pines overlooking Clear Lake. There is a moderate slope from shore to the site.

Site 644 is located in an area that overlooks the lake and is near a large bog and has a gradual slope. The variety of land formations near this site make it an interesting one to explore.
